## EDUCATION

### **Awadhesh Pratap Singh University Rewa MP**

BCA Bachelor of Computer Application (Graduated in May 2022)  
Percentage 68.70

### **Lovely Professional University Panjab**

Master of Computer Application (Sep-2024 - Pursuing)

### **HIGH SCHOOL EDUCATION**

Class 12<sup>th</sup> | State Board | Children Academy high school Rewa - 486001 | Percentage 57.60  
Class 10<sup>th</sup> | State Board | Children Academy high school Rewa - 486001 | Percentage 52.70

## TECHNICAL SKILLSET

- **Algorithms And Data Structures**
- **Programming Languages** – Java, JavaScript, HTML5, CSS3, Firebase,
- **Operating System** – Windows11
- **Frameworks** – React.js.
- **Server-side Scripting** – Java 8,
- **Database** – MySQL (RDBMS), SSMS, MongoDB
- **API** – Postman, REST APIs, Version Control
- **Application & Web Server** – Apache Tomcat 9.0, Xammp Server.
- **Tools** – Sublime Text 3, Visual Studio Code, IntelliJ, Git

## PROJECTS AND EXPERIENCES

- **Yukti Tech It Services Pvt Ltd: Indore M.P (April 2022 – May 2023)**
  - Creating infrastructure for seamless building, deployment and integration.
  - Providing the fleet with a wide view of machines and their accounting owner.
  - Onboarding all the shared services in resource management for effortless resource distribution.
- **Bentek Automation Pvt. Ltd. (May 2023 – Sep 2024)** – Worked majorly on writing front-end in Java and designing Java user friendly applications
  - Creating and maintaining applications facing high-speed concurrent customer requests.
  - Worked on various aspects of application like high-level and low-level design, cost estimation, etc.
- **Kitchen Story – Freelancing (Nov-2023 – Dec 2023)**
  - Creating a user-friendly ecommerce web application
  - Users can easily access to nearby shop and get the grocery
  - Razor pays payment integration
- **Codedevh – Freelancing (July-2025 – Aug 2025)**
  - creating LMS 3 Module, Role Based Login, Admin Dashboard, Stripe Payment Integration

**Programming language use:** - HTML5, CSS3, JAVASCRIPT, BOTSTAP8, REACT JS, RAPID API, Hooks

- **Gym Management (<https://gym-management-uv5c.vercel.app/>)**

**Description:** Developed a Gym Management System to streamline member registrations, workout scheduling, trainer assignments, and membership tracking with an intuitive and responsive interface.

**Technologies Used:** React.js, React Hooks, Node.js, Express, MongoDB

### **Highlights:**

- Implemented dynamic membership management, workout plans, and schedules with JavaScript and React.js
- Developed RESTful APIs with Node.js to handle authentication, trainer allocation, and membership operations.
- Integrated MongoDB for secure and scalable data storage of users, memberships, and workout schedules.

## COMPETITIVE PROGRAMMING STATISTICS

- Hacker rank: Username – piyushnapit86,

## Certification & Awards

- **Caltech university of California** – Full stack Web developer
- **Postman** – API testing
- **AISSE** – Hackathon Associated with Geekforgreeks
- **Geekforgreeks** – Hackathon team lead
- **Hacker rank** – React js certificate
- **Simplilearn** – Java SE8 developer
- **Crio.do** – DSA Problem Solver (Beginner level)
- **Meta** – Front End development
- **Microsoft** – Foundation of front-end development
- **MongoDB** – Skill development MongoDB school
- **Oracle** – Oracle Cloud Infrastructure 2025 Certified Generative AI Professional

#### Events

- **Geekforgreeks Hackathon<sup>TH</sup>** – Organized by the Geekforgreeks on college campus Of AIS SCE I have cleared 2 rounds.
- **Microsoft Ignite** – Learning here the basic workflow of cloud computing
- **GDG (Google developer group – Jalandhar Panjab)**  
Learning about the how to work technology and basic workflow of all platforms code working flow
